Vgevg: RC planes are fun to fly and if you are a beginner, you are always filled with excitement and want to get your hands on your model. But before you can 'be in the sky', there are certain things you should know about these models.

## **Beginners Guide To Rc Planes - Streetdirectory.com**

The Leoie XK A800 780mm RC Sailplane provides excellent value for money, but it's not for everyone. It's too small, fast, and agile for the raw beginner despite its 6G stabilization. Skilled pilots love it for the same reasons, though. The glider tends to be a little nose heavy too. Its EPO foam construction provides average durability at best.
