Dual Approach to ROE and Financial Statement Analysis. We continue to stress profitability and return analysis as a "hook" for student interest. The analysis framework includes disaggregation of ROE and application of several other key metrics. Module 4 opens with the traditional DuPont model as a simple, yet powerful, analysis framework.

The 'PEG ratio' (price/earnings to growth ratio) is a valuation metric for determining the relative trade-off between the price of a stock, the earnings generated per share (), and the company's expected growth. In general, the P/E ratio is higher for a company with a higher growth rate. Thus, using just the P/E ratio would make high-growth companies appear overvalued relative to others.

PEG ratio - Wikipedia

The sample includes firm-year observations at the intersection of I/B/E/S and Compustat databases for fiscal year ends from the year 2000 to September 30, 2017. 18 We obtain analysts' annual earnings forecasts from I/B/E/S, annual and quarterly financial statement data from Compustat, and management guidance data from Thomson Reuters. We remove observations missing I/B/E/S data or with fewer ...
