### Middle East: Economy | Scholastic

Early History The Middle East has been called the cradle of civilization. More than 8,000 years ago, people in this part of the world discovered the methods of agriculture that freed them from the need to wander about in search of food as hunters and gatherers. The development of settled communities and the earliest forms of government followed.

### Background: Middle East | Scholastic

A turning point in the history of the Middle East came when oil was discovered, first in Persia in 1908 and later in Saudi Arabia (in 1938) and the other Persian Gulf states, and also in Libya and Algeria. A Western dependence on Middle Eastern oil and the decline of British influence led to a growing American interest in the region.
