The International Health Regulations (IHR), first adopted by the World Health Assembly in 1969 and last revised in 2005, are a legally binding instrument of international law that aims for international collaboration "to prevent, protect against, control, and provide a public health response to the international spread of disease in ways that are commensurate with and restricted to public ...

International Health Regulations - Wikipedia

Sun International has historically managed Health and Safety (H&S) at a property level, with no formal strategic direction from a Group perspective. This resulted in operations developing internal systems and managing H&S at an operational level, using and depending solely on internal resources. With the South African health and safety legislation becoming more cumbersome and imposing stricter requirements on companies and their operations, Sun International shifted their focus in 2014, to ...
