Lymphadenitis: Background, Pathophysiology

AETIOLOGY AND PATHOPHYSIOLOGY. The neurobiology of catatonia is believed to originate in disturbances in GABA, glutamate, and dopamine signalling, which are hypothesised to underlie the behavioural, motor, cognitive, and affective symptoms of catatonia [Northoff 2002]:. Reduced GABA-A receptor activity in the right lateral orbitofrontal and right posterior parietal cortex, which would explain ...

Brunner & Suddarth's Textbook of Medical-Surgical Nursing ...

Dysthymia, also known as persistent depressive disorder (PDD), is a mental and behavioral disorder, specifically a disorder primarily of mood, consisting of the same cognitive and physical problems as depression, but with longer-lasting symptoms. The concept was coined by Robert Spitzer as a replacement for the term "depressive personality" in the late 1970s.

Dysthymia - Wikipedia

Hemorrhoid cushions are a part of normal human anatomy and become a pathological disease only when they experience abnormal changes. There are three main cushions present in the normal anal canal. These are located classically at left lateral, right anterior, and right posterior positions. They are composed of neither arteries nor veins, but blood vessels called sinusoids, connective tissue ...
