Newborn Hygiene Newborn hygiene care, including bathing, skin care and changing diapers, is important for your baby's health and comfort. Bathing and skin care Giving a small, wiggly baby a bath can make a new parent nervous, but by being calm and prepared you will become comfortable with the process.

## **Newborn Hygiene | Northwestern Medicine**

The American Academy of Pediatrics proposed a definition of the medical home in a 1992 policy statement. Efforts to establish medical homes for all children have encountered many challenges, including the existence of multiple interpretations of the “medical home” concept and the lack of adequate reimbursement for services provided by physicians caring for children in a medical home.

Physician Affiliate Group of New York (PAGNY) is one of the largest multi-disciplinary groups in the country whose main purpose is to nurture and embolden the healthcare providers who take care of the most fragile and vulnerable patients in New York City. PAGNY people do more than diagnose and treat; we uplift the spirits and dignity of patients because we love what we do, and it shows.
