Long-term studies of Belding's ground squirrels show that immigrants move nearly 2 km from where they are born and make up 1 to 8% of the males and 0.7 to 6% of the females in other populations. On an evolutionary scale, why is this significant? A) These immigrants make up for the deaths of individuals keeping the other populations' size stable. B)

Ecology Chapter 53 Flashcards | Quizlet

Apocalypse Unleashed, formerly titled Wholesome Unleashed, is a story about two twins in a LitRPG System apocalypse. It is a well-written story with a lot of interesting mechanics, LitRPG aspects, and just the general magic system, which is probably my favorite part of the story.

Chapter 4

The Piney Woods is the eastern region of Texas and is within the humid subtropical climate zone. It receives the most rainfall; more than 60 inches (1,500 mm) annually in the far east. This is due to the gulf currents that carry humid air to the region, where it condenses and precipitates out in the vicinity of sea breeze fronts as well as when extratropical cyclones move by.

The Space Wolves (also Sky Warriors of Russ, Rout or Vlka Fenryka or Wolves of Fenris in Fenrisian) were the VI Legion of the twenty Space Marine Legions. Their primarch is Leman Russ, and during the Great Crusade they gained a reputation as the Emperor's executioners and instruments of punishment. After the Horus Heresy and the resultant reforms, the legion was divided, its first and only time ...
