Alstom: track products

A track circuit is a
traffic detection
system. This device,
fitted to the rails,
applies an electrical
voltage to a given
section of rail. When a

Get Free Track Circuit Alstom

train passes by, this causes a short-circuit. It is therefore possible to detect the arrival of a train in that particular section.

Track circuit description - 3 minutes' stop - Alstom

Alstom has been awarded a contract worth 28 million by MTR[1] Corporation to replace the track circuits of five MTR
